Official Diary

Tuesday, 10 July 1951

25X1 [ ] called and reported that [ ] would like copies  
25X1 of all efficiency reports on USAF personnel with CIA. Told him to send  
them to [ ] if Mr. Wolf agreed.

Worked with Chet Hansen in drawing-up intelligence flow chart for  
DCI briefing of O'Mahoney. We have not heard as yet whether the O'Mahoney  
briefing can be set up for Thursday.

25X1 Called on [ ] to check what we are supposed to do about  
progress report for NSC 68/4. This will be taken up at the Senior Staff  
meeting this afternoon and I will have a memorandum for the D/DCI.

Pforzheimer asked about the semi-annual report on atomic energy.  
Told him that this had gone out to the IAC agencies for concurrence and  
to advise the Committee that it would be ready next week. Spoke to the  
DCI about the semi-annual atomic report and he stated that he saw no reason  
to bring this up at an IAC meeting. Air Force and Navy can submit dissents  
if they want to.

A good part of the day spent in arranging for briefing materials  
for the DCI.
